

INFORMATION TECHNOLOGY DIRECTOR

The City of Altoona, PA is seeking an innovative, dynamic individual to serve as its next Information Technology Director. This position is responsible for the City of Altoona's information technology planning and operations, including server administration, core systems support, virtualization, storage, data center, and applications. They will exercise supervision over the information technology department staff, including general oversight of assigned contractors.

The preferred candidate will possess a Bachelor's degree in Computer Science or a closely related field with a minimum of five (5) years progressive experience in an information technology focused position. Two (2) years of leadership, supervisory-based experience is preferred. This position requires a working knowledge of and ability to manage and configure Cisco IP telephony, Cisco network infrastructure, Windows server and operating systems, virtualization software, and SQL.

The City of Altoona offers a comprehensive benefit package including a base salary dependent on qualifications and experience; health, dental, vision and life insurance; paid time off; and retirement options. Interested individuals should submit a cover letter, resume and at least three (3) professional references to the Human Resources Department of City Hall at 1301 12th Street, Suite 400, Altoona, PA 16601. For more information on the City of Altoona, please visit www.altoonapa.gov or contact Human Resources at (814) 949-2418.
