DEMOLITION WORK

- Demolition which results in any potential encroachment into the public right-of-way requires approval from the Department of Public Works prior to the issuance of a demolition permit.
- A site plan shall be submitted with this application which will show the location of the proposed demolition, adjacent streets and above grade infrastructure. In addition, a narrative shall be included which describes the methods to be used to ensure the protection of motorists and pedestrians and the prevention of damage to public improvements.
- The public rights-of-way (sidewalk, adjoining walkways, streets, and alleys) shall be kept free of debris, equipment and materials at all times to ensure an unobstructed pathway for pedestrians and motorists.
- Equipment on tracks is not permitted to operate on paved streets without approved protection to the street in place.
- Financial security in excess of the base permit fee may be required to protect City-owned public improvements.
- Owner or General Contractor shall notify the Department of Public Works (814-949-2446) 24 hours prior to the start of the demolition and 24 hours prior to the sewer cap inspection.

Failure to adhere to these requirements constitutes a violation of the IBC and subjects the applicant to fines and penalties.
